

Extra credit

Students wishing to improve their grade may choose only one of the following for extra credit. The extra credit you choose will be only applied to that category of your grade.

Who May Do the Extra Credit?

1. Students who have completed every assignment, lab, and assessment. If you have not completed all of these, you may not do extra credit to replaced the credit lost.
2. All students who fulfill the requirements in #1, can participate.

****Extra credit cannot help you achieve the 98% to not have to take the final exam. Those students wishing to NOT have to take the final exam, must earn the 98% without the help of extra credit.**

****The maximum end of semester grade that a student can earn with extra credit is a 97.9%- A. You cannot earn an A+ with extra credit.**

****Students may do one extra credit assignment per chapter.**

****Any extra credit that requires instructor approval must have approval prior to starting the extra credit.**

****Extra credit is due the day of the test. No exceptions.**

****Extra credit will be in tiers. Percent values are awarded and determined based on the complexity and correctness.**

****The awarding of extra credit percentages is at my discretion and cannot be challenged. After all, it is extra credit.**

Examples

Up to 4%	define words				
Up to 6%	Complex Graphic organizer with definitions or descriptions of words	Quizlet of vocab words	Google form quiz of vocab quiz words		
Up to 8%	Google form test review- with pictures and/or animations	Create a model	artistry		
Up to 10% (maybe more)	Constuct a lab with procedures and conclusion questions- Google form?	Create lyrics to a song	Create a dance	animations	

****Students may develop their own ideas for extra credit, but must have instructor approval. Students may earn up to 10% for their ideas. A percentage will be determined prior to students starting the extra credit. (animations, videos, songs, etc.)**
